New Certificate:

University Certificate in Youth Ministry 24 credits

The University Certificate in Youth Ministry program consists of eight 3-credit hour university courses. The required courses focus on spiritual formation, the foundations of discipleship, and leadership in ministry and include an internship. The elective courses can be taken from designated university courses in theology, psychology, sociology, and education. The latter allows for a tailoring of the program to the needs and interests of the students. The program is for students who have experience in youth and young adult ministry or for those who have already obtained a post-secondary degree. Space permitting, the required non-internship courses are open to youth workers who are interested in equipping themselves more or refreshing their insights.

Course Work

The University Certificate in Youth Ministry consists of 24 credits of:

- YTMN 310, 320, 330, 390
